This office requests that all public pool and spa operators provide information on their pool and/or spa drain cover manufacturer along with each cover's lifespan specification and installation date.

Part of the Virginia Graeme Baker (VGB) Act requires pool and spa drain cover manufacturers to determine a lifespan the drain cover can be in service from the date of installation. The lifespan of each cover varies between manufacturers. This number does not always show up on the Certificate of Compliance or packaging that comes with the cover, but instead is stamped on the cover itself. Covers must be replaced prior to the end of the lifespan determined by the manufacturer. Please verify that the replaced covers are installed according to the manufacturer specifications and that the flow rate on the cover is correct for the application.

***The following lifespan chart is for guidance only. It's important to check with your service company or drain cover provider for your date of installation and manufacturer specifications.***

Drain Cover Manufacturer	Lifespan of Covers (from date of Installation)
New Water Solutions	3 Years
Aqua Star	5 Years
Paramount/SDX-Retro	5 Years
Hayward	7 Years
Waterway	7 Years
Lawson	10 Years
A & A	10 Years
Triodyne Anti-Hair Snare Drain Cover	7 Years
